If there’s anything to nitpick about is that the v2 of the mod also makes the awaken burst last forever, bugging some automatic skills that depend on the amount of health to trigger. I don’t think that can be fixed though, since the awaken burst is a “hidden” skill that most likely is tied to normal skills, thus sharing the same code. If that is the case, making a v3 is redundant.Achkhbar三七八December 17, 2020, at 5:33 pmdid someone get banned after using the mod? v2.how to make a new account?
